Continuation of Substance of Interview including description of the general nature of what was discussed: It was indicated that the claims would be in condition for allowance if claim 12 was amended to clarify that the VP22 protein (or fragment thereof) was physically connected to the substance to be delivered. It was suggested that the claim be amended to replace the phrase "and a non-covalent association" in line 3 of the claim with the phrase - - and a non-covalent coupling- -. The Applicant agreed to the amendment and indicated that an Examiner's amendment making this change would be acceptable. .
